

'Sometimes I Laugh Like My Sister' - a production by Obviam Est and Vltal Dlgression

Technical Rider

STAGE

Minimum playing area: 5m (width) x 3.5m (depth).

No wings or backdrop required, but if they are present this presents no problem for the production.

SET & PROPS

One drinking glass and one jug with water.

One simple table (or similar) that is large enough to hold the jug and the glass.

One simple chair, preferably dark colour.

LIGHTING

A general light for the whole stage area is required. If it is possible, a vertical downlight above the chair - which should have a separate channel from the general lighting.

DRESSINGROOM

A dressing room for one person is required with enough light and a mirror for make-up.

A jug of tap water and a glass would be appreciated.

If there are any problems with the above requirements please contact us as we are sure we can find a solution!
